Work Experience

Feiwin | Senior Web Developer | Jan 2024 - present

Feiwin is a visionary mobile game development company that makes next-generation online game solutions using best-in-class technologies

- Work closely with backend developers to integrate web APIs and services for seamless data exchange between the web application and existing backend systems
- Collaborate with cross-functional teams including mobile developers, designers, and product managers to understand existing iOS and Android app functionalities and features
- Develop responsive web applications using modern web technologies such as HTML5, CSS3, JavaScript, and frameworks React.js, Next.js, Redux / Redux Toolkit, Tailwind, Gitlab

Vesta | Software Engineer | Oct 2022 - Jan 2024

Vesta is a global transaction guarantee company for online purchases, delivering unparalleled approval rates and a frictionless customer experience while eliminating chargebacks and other forms of digital fraud.

- Collaborate with the team to maintain and add features to the Internal and Customer Dashboards.
- Work closely with the Product Manager to gather and understand requirements.
- Attend regular team meetings to discuss project progress, roadblocks, and upcoming sprints.
- Write clean, maintainable, and efficient code and continuously improve the software development process and contribute to best practices.
- ReactJS, NextJS, SCSS, Bootstrap, CSS
- Azure, Git, Jira, Cosmos DB

Dotdigital Philippines | Consultant Web Developer | Oct 2022 - Jan 2024

Dotdigital Philippines | Web Developer | Aug 2019 - 2022

- Managed all aspects of website development, excluding web design and content writing.
- Developed and maintained WordPress and Shopify websites, ensuring optimal performance and functionality.
- Optimized website speed, SEO, and user experience to enhance performance.
- Implemented robust security measures and conducted regular updates to protect websites from vulnerabilities.
- Conducted thorough testing and quality assurance to ensure error-free and high-quality deliverables.
- Utilized technologies such as HTML, SCSS, Liquid, PHP, Bootstrap, Tailwind CSS, React.js, and Gatsby.js to build responsive and dynamic websites.
- Managed hosting, domains, and server configurations using platforms like Git, GitHub, Namecheap, cPanel, FTP, and GoDaddy.

Fiverr | Freelance Web Developer

- Specialized exclusively in WordPress-related projects on Fiverr.
- Provided bug fixes, troubleshooting, and quality assurance for client projects.

Career Goal

To master all aspects of software development, from backend to frontend, to the point where I can independently design, develop, and deploy fully functional web applications from scratch without relying on external resources or references.

Skills

React JS

Next JS
